

Belcan

Belcan is a global supplier of engineering, supply chain, technical services, & consulting services to customers in the aerospace, defense, automotive, industrial & government sectors. Belcan has over 10,000 employees in 50 locations around the world.

PROJECT DETAILS

Belcan acquired multiple companies in the UK and wanted to consolidate all of their operations into one application, they chose Oracle Cloud ERP. Their primary goal was to modernize their accounting systems in both the UK and India. They were previously using Tally and other legacy applications for their operations.

WHY VIGILANT

Belcan's UK operations was having issues with their Oracle Cloud ERP implementation and engaged Vigilant to ensure the projects success. We provided timely IT consulting support which identified and fixed their issues, thus bringing their implementation back on track. Because Vigilant was able to save Belcan's UK Oracle Cloud Financials implementation, we earned their trust and became their partner on implementing Oracle Financials for their India division.
